IMI is known for diversified activities including teaching, training, research and consulting, which are the four pillars of quality education and IMI Bhubaneswar is built on the power of these four pillars of quality

education. The Institute fosters and nurtures leaders of tomorrow inculcating in them the capability of making a difference in the society. The institution is closely knit with the requisites of the ever-changing industry and actively seeks the participation of industry leaders in development of course offerings and to take up research in emerging areas. This also helps us to keep our offerings current and relevant as per the needs of the industry. In addition, IMI Bhubaneswar also provides training to Corporate executives, thus making IMI Bhubaneswar a hub for their manpower requirement. Education at IMI Bhubaneswar is primarily based on three concrete platforms i.e. Creation of Knowledge, Dissemination of Knowledge and Application of Knowledge. The batches of PGDM and PGDM-PT students have performed stupendously well and often embarked on explicit endeavours in their journey to create new lives for themselves through hard work and sacrifice, holding the torch high for the future batches to follow in their footsteps. This is, largely a result of the continuous quality support and guidance by the faculty of IMI Bhubaneswar, which is an eclectic, learned and committed team of professionals drawn from varied streams of discipline with over two-third of them having industry and/or international recognition. The institution believes in a well-rounded and all-pervasive student experience to maximize learning opportunities. To achieve this, the institution provides the course structure that has been thoughtfully designed to enable students to hone their managerial skills and acquaint with the new developments taking place in the industry. The pedagogical tools applied by the faculty members constantly motivate students to be innovative, competent and creative. The learning imparted by our highly experienced faculty encourages students to inculcate in them, the values of self-reliance, which stand them in good stead in becoming successful managers and brand ambassadors of their organizations. Nested in ecologically invigorating ambience, IMI Bhubaneswar epitomizes a modern age "Gurukul", where talent is nurtured, groomed and launched into corporate world. We are proud to have a stupendous batch of world-class leaders as our alumni and most profoundly believe that the batch of 2019-21 will uphold the equity of IMI Bhubaneswar and continue to glorify its name for times immemorial.

PGDM 2011-13 Batch

AVP – Yes Bank

“With 2 years of prior work experience and stable job, I was a bit apprehensive joining IMI Bhubaneswar. But with the backing of IMI Delhi, and its long standing association with reputed business houses I have decided to tread this path Being a new Institute it had its own charm. Students had a lot of involvement in organizing events, taking new initiatives, undertaking placement related activities and channelizing efforts towards establishing the institute. This also honed our entrepreneurial skills. The methodology of teaching and the domain knowledge of the faculties acted not only as a catalyst in developing a better understanding of the subjects but also helped us to develop a structured approach towards problem solving” I am sure in time to come the institute will establish itself as Mecca of Business Education in the country.
