**Prof. Ramesh Behl**

It gives me immense pleasure in representing IMI Bhubaneswar to the corporate world. Right through our journey IMI Bhubaneswar has focused on building leaders who deliver true value to the organizations that they work for not just in terms of work-related competence, but also, the strong ethics and value system that guides them as individuals and corporate citizens. IMI Bhubaneswar selects students from diverse backgrounds with excellent academic records and high leadership qualities. Our experienced faculty members guide and shape these students through a management curriculum that has been built through regular interaction with the industry. IMI Bhubaneswar in its pursuit to offer quality education puts lot of emphasis on on-the-job training in terms of Summer Internships, live projects, leadership talks and experiential learning sessions.

All along, the focus is on building leaders with a strong character. These qualities of character, competence, and enthusiasm in our students, have ensured a firm and lasting bond between IMI Bhubaneswar and many corporates that regularly recruit from us every year. Our Alumni base of over 550+, spread out across boundaries, provides ample testimony of these strong relationships. They are consistently delivering value to the organizations they work for. Institute always tries to create equal opportunities for its community. As a result, the performance of our students in all the key areas of an industry has been remarkable. "With IMI Bhubaneswar continuing on its journey of producing Global leaders, I am confident that our students shall further enrich our bonds with the industry, and IMI Bhubaneswar shall continue to be a destination of choice for recruiting organizations for the years to come."

I am happy to share that this year, despite challenging market environment of 2023, we completed the placements well before the end of academic year. Our recruiters were overwhelmed with the quality of the programme and the skill set of our students. Our students got placement opportunities across industries and across domains.
