Telephone: +91-674-3042-142
E-Mail: ramakrushna@imibh.edu.in
Consulting Hours: Tuesday and Thursday 3.00 P.M to 4.30 P.M
Academic Year: 2016-17

Introduction

This course titled “Macroeconomic Theory and Policy” provides an understanding of the functioning of an economy and an alternative perspective to the managers of corporate world. The main focus of this course will be on the macroeconomic policy variables of an economy which are intertwined. This course deals with macroeconomic policies with their implications in both free market as well as government regulated economies of the world. Also, it provides a robust understanding of macroeconomic scenario especially in the Indian context that will help business students to comprehend business problems from a holistic perspective. The initial modules deal with basic macroeconomic concepts such as national income and its various aggregates, Consumption, Savings and Investment with their implications to provide an understanding of how economy functions which is essential to understand how business takes place in an economy. Later modules deal with macroeconomic equilibrium to explain optimal levels of employment and Output with their implications on inflation, growth and development aspects of a country. The final modules deal with various macro parameters such as fiscal deficit, public debt, trade deficits in the context of an open economy and theories of international trade. There will be discussion of issues which have had profound influence on business as well as economy in recent times in US, Europe, Japan and South East Asia. Throughout the course, emphasis will be on applications and sharpening of reasoning skills in a business environment that the student will be able to relate to.

Learning Outcomes

The course aims to:

1. Demonstrate an understanding of concepts, content and scope of macroeconomic principles in business decision making.
2. Be familiar with functioning of a macro-economy and the role of the government.
3. Be able to analyse and interpret economic data for use in decision making situations and report solutions to decision making problems, highlighting key aspects of the business problem in the context of political and economic environment.
4. Show an awareness of the macroeconomic policy variables relevant to business environment of top economies of the world.

Pedagogy

The course will be delivered through a combination of lectures and classroom case discussions. I shall encourage more peer learning in this course as contemporary current data will be used to demonstrate macroeconomic problems. Students are expected to be up to date on all macroeconomic indicators from the internet, newspapers and other sources as advised. For maximum impact, students are expected to take group exercises to develop further insights to macro-economic problems. Also, students are expected to come prepared for the class by reading the prescribed materials. A few relevant cases shall be discussed in the class to strengthen the learning. Power point slides of class lectures and all other relevant material will be made available to students.

Reading Materials

Books

1. MACROECONOMICS, R. Dornbusch, S. Fisher and R. Startz (2015), McGraw-Hill Education, 11th Edition (INDIAN EDITION).
2. PRINCIPLES OF MACROECONOMICS, Mankiw N Gregory 6th Edition (2012), Cengage Learning.
3. PRINCIPLES OF MACROECONOMICS, Rangarajan C and Dholakia B H (2014), McGraw Hill Education, 40th Reprint .

Internet Sources:

There are several websites that have interesting information and analysis pertaining to macro economies of various countries. The students are advised to follow www.ft.com (Financial Times) and www.economist.com (The Economist) on a regular basis. The data pertaining to macro economic variables for Indian economy can be obtained from www.rbi.org.in and

www.mospi.gov.in. Also, other government websites of India and other countries need to be followed to update relevant macro-economic parameters.

List of Cases

Case 1: The Great Depression, Mass Unemployment and Business Leadership; HBS-9-804-163

Case 2: Kinyuseisaku: Monetary Policy in Japan (A); HBS 9-708-017

Case 3: Brazil 2003: Inflation Targeting and Debt Dynamics; HBS- 9-704-028

Case 4: Argentina's Convertibility Plan; HBS -5-703-002

Case 5: Indian Economy in 2016: Macroeconomic Policies during a Turbulent Global Economy, IMI, Bhubaneswar Case.

Evaluation Criteria

The evaluation for the course will have various components like quizzes, case presentations, End-Term and Mid-Term examinations as well as class participation. The final grade will be calculated as follows:

Components		Weight
01	End Term Exam	30%
02	Mid-Term Exam	20%
03	Quizzes	20%
04	Class participation *	10%
05	Assignment	10%
06	Presentation	10%

*The student is expected to come prepared to class by reading the materials provided by faculty and constructively contribute to class discussions. Similarly, for case discussions, the student is expected to read the case and advised to surf the net to have a grip on specific case-related issues and contribute to the discussion. The students are advised to keep themselves updated on any latest news/happenings nationally/internationally. The student is expected to be proactive in enriching the discussion for this component. Please note that *mere attendance* has no weightage for this component.
