Course Introduction:

The impact of Customer Relationship Management (CRM) on the marketplace has been phenomenal. It has shifted the strategic paradigm from mere customer acquisition towards customer acquisition and retention. Technology as an enabler has contributed towards enriching the customer experience at every touchpoint leading to greater customer value creation. CRM has emerged as a business strategy that needs to be effectively executed through seamless integration of business process and technology management capabilities by the employees of the organization to best match the organization's customer interaction goals. The adoption and application of CRM across B2C sectors (e.g. Banking, Telecom, Retailing, Hospitality, Automobile), and B2B sectors (e.g. consulting, OEMs) makes awareness of the tools and techniques of CRM a must-have for every marketing professional.

Learning Outcomes:

The following are the learning outcomes of the course:

LO1	To conceptualize the philosophy and concept of customer relationships.
LO2	To understand the framework of CRM practice and its elements.
LO3	To be able to select appropriate customers for acquisition and retention for long term profitability.
